

## *Iteration 1: Completed February 5<sup>th</sup> (see previous submission)*

## **Iteration 2: Completed February 26<sup>th</sup> (Current submission)**

Summary of work done for the Iteration 2 detailed user stories:

- Event Finalization (carry forward from iteration 1)
  - The creator of an event can choose the finalized date after invitees have responded to date proposals
- Event Chat
  - Message board available for each event for users to communicate with other invitees and the event creator
- Respond to invites
  - Users can use the app to respond to the invite
- Change RSVP
  - Users can change their rsvp via the app
- Create Private/Public Events
  - When creating an event, user can now specify if the event is private or public
  - All events are either private or public and this info is displayed
- Display Public Events
  - Public events are now listed for everyone under the Public Events heading
- RSVP to Public Events
  - Any logged in user can rsvp to a public event
- Event Items List
  - Event creators can make a list of items required for the event.
  - Items are displayed to all invitees
- Event Items Assignment
  - Did not complete this user story. It will be forwarded to Iteration 3. Testing and adding a RESTFUL service took more time than anticipated and one of the planned detailed stories had to be pushed to the next iteration. As this detailed user story had a low priority, it was chosen to be delayed.

## **Iteration 3: (Planning for next iteration)**

Detailed user stories for this upcoming iteration:

- Event Items Assignment (*Pushed from iteration 2*)
  - Allow event attendees to volunteer to bring items required for an event
    - Priority: Medium      Cost: 3 Days
- Events by Location
  - I want to be able to search public events close to my location.
    - Priority: Low      Cost: 5 Days
  - I want to list my public event with location information so that anyone in the area can find it.
    - Priority: Low      Cost: 2 Days
- Event Notifications
  - I would like to be notified of any changes to an event.
    - Priority: High      Cost: 3 Days
  - I want a reminder email close to the date of an event.
    - Priority: High      Cost: 4 Days

Additional Tasks for Iteration 3 (*not part of original release plan*):

While working on the product and testing it with users, it became apparent that a few features were desirable to users now that they have a partial product to use.

- Event cancelation:
  - Allow me to cancel my event
    - Priority: High      Cost: 2 Days
  - Notify the invitees of my cancelation
    - Priority: High      Cost: 3 Days

#### **Iteration 4: (*future*)**

- Invite Friends to Event
- Ticket Payments
- Attendance Restrictions
- Ticket Sales
